Description: bin for waste separate with drum and base in 1 mm thick sheet-steel powder-coated in black colour, rounded accident-proof edges, the base has a foam rubber profile to protect the floor. The front of the bin opens like a door, by means of special hinges, to facilitate insertion, hooking and removal of the bin liner, and is equipped with a security lock with a triangular key. Upper lid with central hole to dispose of waste, made entirely in powder-coated steel, available in black, red, green, yellow or blue. The lid is hinged to the drum by screws and can be lifted to allow the access to the drum to insert and remove the bin liner. Bin liner holder in steel hinged to the drum by screws to easily insert, hook and remove the bin liner.
