## Open Pod

Design: Kauppi & Kauppi

GLIMAKRA  
OF SWEDEN

BuildUp Meeting Pods & Pavilions is a collection of large-scale, acoustic meeting rooms. A design characterized by openness, functionality, and accessibility – with a mission to create inviting meeting places that also divides and defines large interiors. The fabric covered wall elements have an equally good sound absorption on insides and outsides, which means that the meeting rooms also serve as an effective acoustic solution for the greater interior surrounding the pods. The walls acoustic task is to reduce reverberation time, to achieve pleasant sound atmospheres. The pods have generous entrances without thresholds that closes with curtains. To enable dynamic and creative meetings, the concepts pods and pavilion are equipped with several details, such as white board, monitor bracket, LED light-strips, power outlets and hidden cable routing. All units have a self-supporting construction, which is quick and easy to build and install.

### DESCRIPTION

Straight and curved upholstered screens with a width of 1000 mm or a radius of 1780 mm, 30°.

Height: 2350 mm (screen incl. plinth) + adjustable feet

Plinth with adjustable feet: black metal, height 100 mm.

Upholstery: Furniture nailed with fabric on both sides.

See Product sheet Fabric and Piping.pdf for our standard fabrics, the sheet is available here:

<https://glimakra.com/en/download/>.

Frame straight screens: 2 x 35 mm sound absorbing polyether (Oeko-Tex) glued on both sides of an 8 mm sound reducing MDF board with an 80 mm solid wooden frame.

Frame curved screens: 75mm Post consumer setex inside two sheets of perforated masonite and an 80 mm solid wooden frame.

Ceiling beams: finger-jointed pine, 30 x 138 mm, 10% white. 100% recyclable materials.

### Weight :

R4	390kg
R4 pavilion	215kg
R8	560kg
R12	610kg

### MOUNTING

All pods have a completely self-supporting construction, which means that no floor, wall or ceiling attachments are necessary. Adjustment feet are included to compensate for uneven floors. The Pods are easy to build and move if a new location is desired. The screens are connected with hidden special fittings. Allen key included.

The plinth is mounted on the screen upon delivery.

Lights and sockets are plugged into the plinth. The lighting is controlled by a wireless pre-programmed dimmer.

The curtain rail is mounted 60 mm inside the screen and the curtain is hung with the right side inwards.

Mounting write board: Suspension with aluminium strip that is screwed with wooden screws in the frames of the curved screens.

Wall mount TV: Requires a mounting plate for the TV wall mount which is screwed on with wooden screws in the frames between two screens. Height adapted to needs and selected TV.

### CERTIFICATES

Möbelfakta: The product meets the requirements for environment and responsible supply chains defined by Möbelfakta.

Glimakra of Sweden AB is certified according to ISO 9001:2015 and ISO 14001:2015.

### SPECIFICATION TEXT
